

PROJECT

Applying Science to Complex Projects

Your Strategic Partner for Complex Project Development

OUR PURPOSE

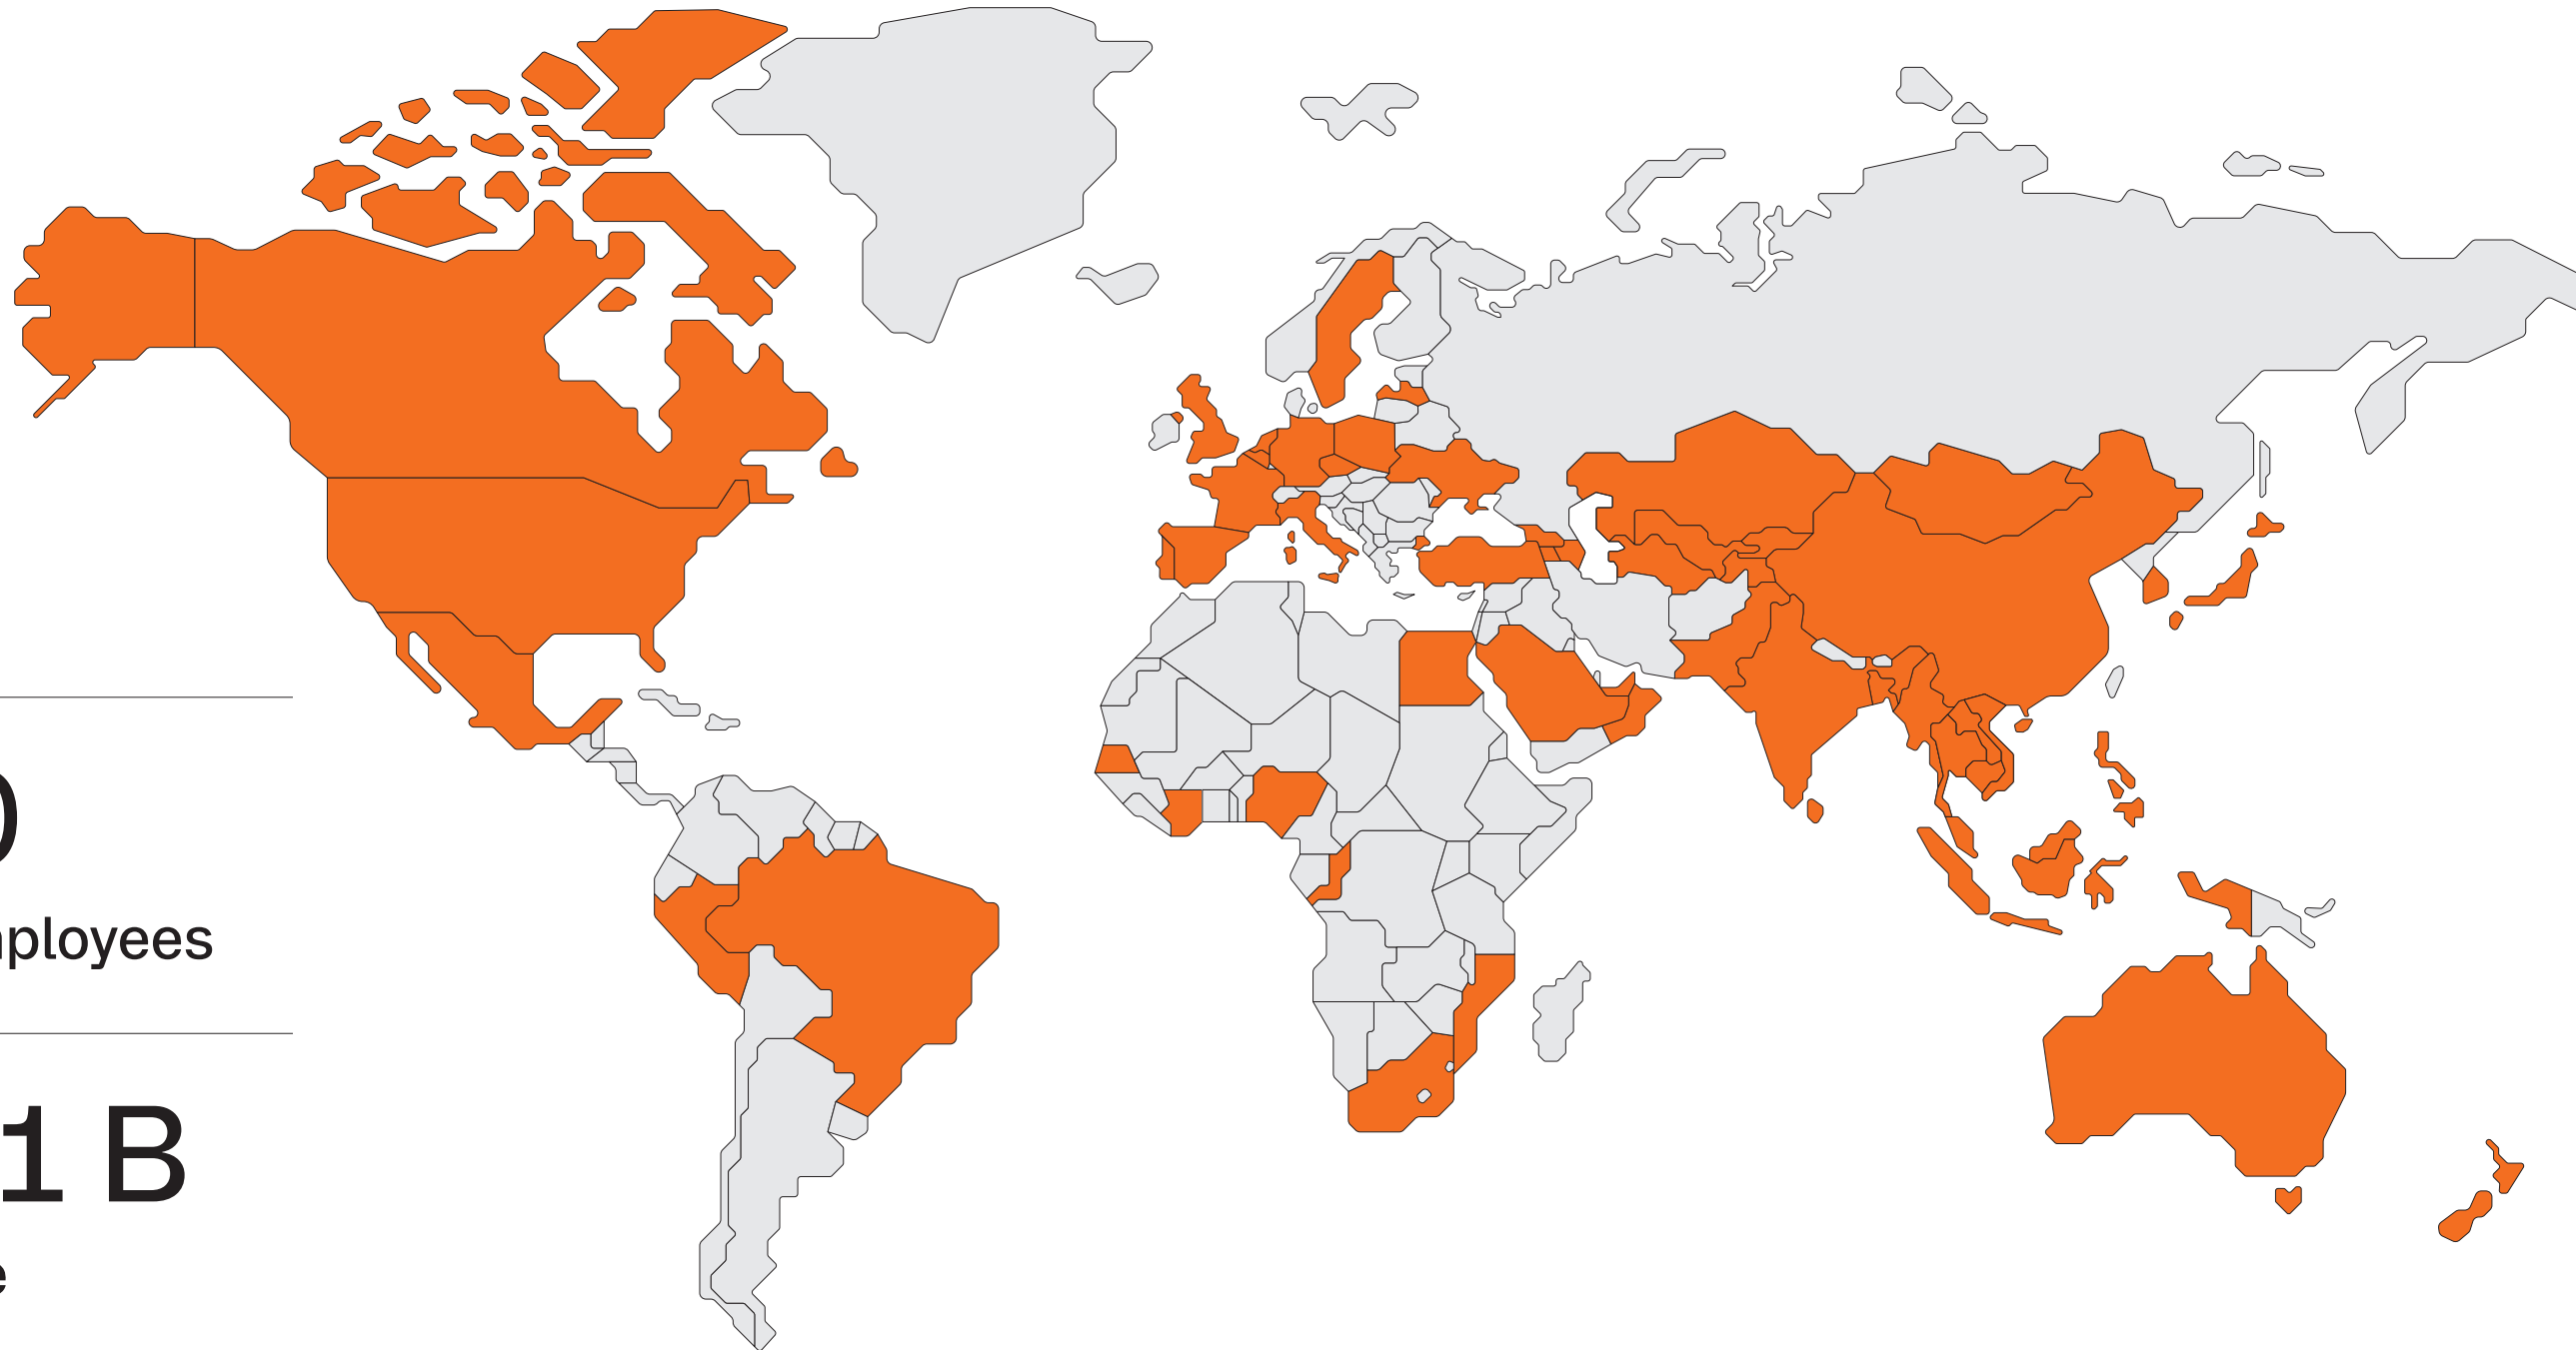

We challenge complexity with science, to enable energy and industrial progress.

Driven by a relentless mindset of innovation, we apply rigorous methods and data-driven insight to deliver certainty across the world's most demanding projects.

From Logistic Expertise to an Integrated Ecosystem of Three Areas of Expertise

Rising to the challenge of increasingly complex industrial projects, we have expanded our logistics capabilities by integrating engineering and project management expertise.

Combined and scaled depending on project complexity, our three technical expertise work together to structure challenges and ensure predictable delivery, guaranteeing safety, quality, schedule, cost, financial strength, and project assurance.

Logistics

Where intelligence drives every operation.

Project Management

Where expertise powers execution.

Engineering

Where complex systems take shape.

We turn complexity into value added solutions

EPCm

Logistics

Mastering our core heritage, we provide in-house end-to-end, integrated logistics solutions, managing the entire logistics lifecycle of our clients, ensuring continuity, schedule certainty, and cost discipline, even in technically challenging environments.

Our Logistics Solutions

- Freight Forwarding
- Asset and Base Management
- Marine Spread
- Integrated Logistics

CORE CAPABILITIES

- Engineering
- Supply Chain Management
- International Freight Forwarding
- Custom Clearance and Regulatory Compliance
- Port and Terminal Operations Management
- Warehousing and Storage Management
- Last Mile Transportation
- Fleet Management
- Heavy Haulage and Lifting
- Specialized Logistics Base Services
- Tracking, Reporting and Control
- Supplier Expediting and Re-shipment Readiness

Project Management

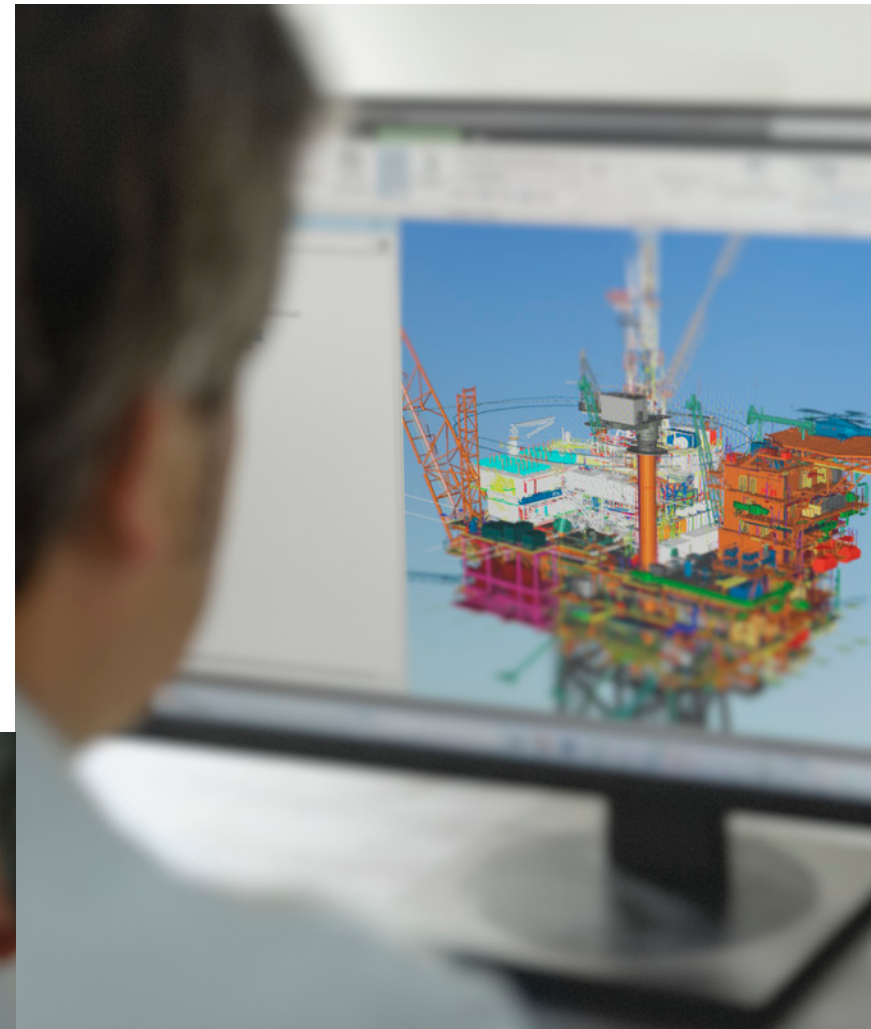

Championing clarity, discipline, and accountability, we deliver precision-engineered Project Management Services (PMS) tailored to support onshore and offshore projects for the industry of energy and infrastructures, including shallow, deep and ultra-deep water operations.

CORE CAPABILITIES

- Cost Estimating, Control and Forecasting
- Planning, Scheduling and Monitoring
- Data Management and Document Control
- End-to-end Risk Management
- Quality & HSE
- Logistics Management
- Procurement and Supply Chain Management
- Interface Management
- Contract and Sub-contract Management
- Management of Engineering and Construction
- Pre-commissioning, Commissioning
- T&I and Marine Operation Coordination

Engineering

CORE CAPABILITIES

- Process and Flow Assurance
- Instrumentation and Control
- Telecommunications and Security
- Technical Safety
- Piping
- Marine Engineering
- 3D Modelling
- Electrical
- Mechanical and Package
- Offshore Structure
- Civil and Architectural

Bridging the gap between concept and delivery, we apply our agile and fully integrated engineering services to full-scale EPC, logistics design, transportation and installation.

T&I

Powering critical projects by mastering complexity, we provide transportation and installation of super-heavy and critical equipment, structures, and modules, from onshore fabrication yards to offshore final project locations. Trusted by energy majors and leading general contractors, we enable the installation of vital infrastructures that underpins energy production and national energy security.

- CORE CAPABILITIES
- Project Management
 - Loadout, Sea-fastening and Transportation Engineering
 - Procurement Services
 - Marine Spread
 - Logistics Base
 - Offshore Installation
 - Commissioning

EPCm

Harnessing the power of advanced technologies and leading experts in the science of progress, we develop and deploy cutting-edge, scalable, end-to-end solutions for the energy and infrastructure industry, navigating both Greenfield challenges and Brownfield interventions, onshore and offshore.

- CORE CAPABILITIES
- Project Management
 - Engineering
 - Procurement Services
 - Integrated Logistics
 - Construction Management
 - Offshore Installation
 - Commissioning

Through our project management excellence, we enable consortia, joint ventures, and multi-stakeholder interfaces, while maintaining full accountability for results.

Our clients, partners and industries

KEY CLIENTS AND STRATEGIC PARTNERS

- Energy Majors
- Asset Owners
- Independent Companies
- Governmental Entities
- Private Investors
- EPC, EPIC, EPCC, EPCIC, EPCm Contractors

INDUSTRIES SERVED

- Energy Sector
- Infrastructure
- Construction
- Chemical and Petrochemicals
